

iCAM

The **Low Cost, High Quality** Intraoral Camera Perfect for Hygiene and Patient Education

The camera is easy to use and works with most imaging software. Unlike most inexpensive cameras which have a short life span, render a mediocre image, and whose capture button does not save an image in your software; the iCam performs admirably. Delivering an excellent image, with its programmable capture button. The iCam is compatible with all major dental imaging software.

iCam works in all leading imaging software and can be used in conjunction with existing cameras.
